

Pavement Management System

Description – Across the country funding for road programs have been slashed! The most cost effective mean of handling these difficult times is to become more efficient. Pavement Management is the corner stone for better road management. Cities, towns, county and state agencies have to prioritize limited maintenance resources. This workshop is designed to identify the components of a pavement management program, e.g. inventory, pavement condition and distress assessment and treatment types.

The objectives are: (1). Discuss class expectations and where participants are in process; (2). Identify the components of a PMS; (3). Learn about assessing condition of pavements; (4). Learn ways to analyze pavement conditions and understand pavement deterioration; and (5). Learn about preservation, minor and major rehabilitation treatments and when to do them.

Registration Information – This course offering through LTAP is intended primarily for local, state, federal and private agencies. Registration fee is \$35 per person. Lunch is “on your own”. Registration can be completed online at: www.mdot.ms.gov/ltap/. Substitutions may be made at any time. Any registrant requiring a reasonable accommodation during training (i.e., mobility or access) should contact the Mississippi LTAP Center prior to the course date so the appropriate arrangements can be made.

Who Should Attend? Those personnel who are responsible for managing road budgets, administrators, public works directors, foreman, superintendents, road managers, MPOs, engineers and those whose job is intimately involved in making decisions for a maintenance treatments on roadways.

Instructors – Cindy Smith, P.E.; Joy Portera, P.E. & Marta Charria, P.E.
